THE REGIONAL PLANNING COMMISSION • COUNTY OF LOS ANGELES, CALIFORNIA

LOS ANGELES COUNTY POPULATION

January 1, 1968 estimate 7,087,677

The Commission estimates that on January first, the population of Los Angeles County totaled 7,087,677. This is an increase of 14,647 during the fourth quarter and 54,739 for the past year.

In the seven and three-quarter years since the 1960 Census, Los Angeles County population has increased approximately 1,045,000 or 17.3 per cent. This is an average gain of 369 persons a day during this period.

During 1967, the population of the County's seventy-six cities rose to a January 1, 1968 total of 5,983,449. This represents a twelve month gain of 49,017. In these same months and in spite of several large annexations, the number of those living within the unincorporated area increased to 1,104,228, a gain of 5,722.

Los Angeles led all cities during the past year in numerical growth with an increase of 27,485 to post a total of 2,823,705 at the beginning of January. Second place went to El Monte with a 1967 gain of 5,653; while Rosemead with an increase of 4,727 took third place. Large annexations accounted for a major share of the growth of both of these cities.

Among other cities registering the largest 1967 population gains were Long Beach which increased by 3,349; Santa Monica 1,448, and Cerritos 1,109. Lesser gains were shown in the following cities: Norwalk 713, Culver City 698, West Covina 687, and Lakewood 653.

DWELLING UNITS ADDED HIT ANOTHER NEW LOW

Net additions to the Los Angeles County housing inventory held steady during the fourth quarter with 3,131 dwelling units being added as compared to 3,147 units in the third quarter. However, net additions for the year sank to 11,594 units which was 13,926 fewer units or a 54.6 percent decline from the total increase for 1966. This is the lowest annual net dwelling unit gain since the Commission began this housing series in 1940.

The decline during 1967 was evident in all housing types. The greatest numerical loss occurred in the multiple category with only 8,274 net units added as compared with 16,503 units in 1966, a drop of slightly less than 50 per cent. The net addition of single units to the inventory in the past year dropped to 3,440 units or 5,239 fewer units than in the previous year.

A survey of residential demolitions disclosed that 7,120 dwelling units were demolished during the past year. This compares with 7,893 units in the previous year and 9,082 units in 1965.

The Santa Monica-Venice Area led the thirty-five Major Statistical Areas in net residential growth during the past year. The 1,749 dwelling units added to the Area's housing inventory was more than double that of the combined total net increase for the second and third place areas. These, the North County and Long Beach Areas, had net gains of 846 and 833 dwelling units respectively.

Six Major Statistical Areas registered net dwelling unit losses in 1967. Those Areas showing net unit losses included: Southeast—410, Compton—256, El Monte—232, East—170, Central—124 and Monrovia—36 units.

LOS ANGELES COUNTY HOUSING TRENDS*

Per Cent of Total Increase	27.0	3.7	69.3	100.0

*These figures are compiled from a monthly survey of residential new construction, move-ins, removals, demolitions and alterations reported by each of the permit issuing agencies in Los Angeles County. Unit changes are entered in the estimated housing inventory after either actual or assumed completion.

**These totals include additional adjustments not reported in the regular building permit review.

* Cudahy (SA 32.10) and Bell Gardens (SA 32.11) were incorporated after April 1, 1960. However, the boundaries of each coincides with those used in the 1960 Census. The census figures are shown in parentheses and are not included in total for SA 32.0.

ADJUSTMENTS

Adjustments made in this issue include the following:

1. A shift of 230 single units from S.A. 10.212 to S.A. 17.2 (Long Beach City). Inasmuch as this annexation also involved a transfer between two Major Statistical Areas, a reduction was made in the totals of the Dominguez-Los Angeles Harbor Area and a corresponding addition in those of the Long Beach Area.

2. An annexation of 117 single and 23 multiple units to S.A. 12.1 (El Monte City) from S.A. 12.21.

3. In order to correct to field reports received during the quarter, 56 single and 88 multiple units in S.A. 12.21 and 50 single units in S.A. 25.43 were removed from the housing inventory.

QUARTERLY BULLETIN

POPULATION AND DWELLING UNITS

THE REGIONAL PLANNING COMMISSION • COUNTY OF LOS ANGELES, CALIFORNIA

LOS ANGELES COUNTY POPULATION

April 1, 1968 Estimate 7,102,897

The population of Los Angeles County reached an estimated total of 7,102,897 on April first. Represented within this figure is an increase of 15,220 during the first quarter of 1968 and an eight-year gain of over 1,060,00 or 17.5% since the 1960 Census. In other terms, this eight-year growth represents an average increase of 363 persons per day.

AVERAGE DAILY INCREASES COMPARED

Source	Persons Per Day		Percent of Total Increase	
	1960-68	1950-60	1960-68	1950-60
Net natural increase	212	195	58%	38%
Net in-migration	151	332	42%	62%
Average daily increase	363	517	100%	100%

These figures point to a clear reversal in the principal source of Los Angeles County growth during this decade. In the "Fifties", not only was the average daily increase of 517 persons per day higher than that of the past eight years, but 62% of the increase resulted from net in-migration, while the remaining 38% was the consequence of net natural increase.

These 1960-1968 net in-migration figures must be used with caution inasmuch as they are derived by deduction, that is by subtracting a known total for net natural increase (an excess of birth over deaths) from an estimated total population gain. Not until the extensive field work of the 1970 Census is tabulated will an actual net in-migration figure be available.

The total number of residents within the County's seventy-seven cities rose to an April first total of 6,055,620. This is an increase of 1,109,170 or 22.4% since the 1960 Census. Contributing to this increase were more than 940 annexations and 9 incorporations.

In these same years, the number of those living within the unincorporated area declined from 1,096,250 to 1,047,277, a loss of 48,973 or 4.5%.

In the eight years since the 1960 Census, six cities have experienced an individual population gain of 25,000 persons or more, while four have shown a loss. Los Angeles City registered the greatest gain adding an estimated 348,233, or a 14% increase to reach an April 1, 1968 total of 2,829,828. Population increases shown in the remaining five leading cities were as follows: El Monte 51,895 (394%), Whittier 39,227 (116.5%), Long Beach 36,796 (10.7%), Torrance 32,104 (31.8%), and Inglewood 26,337 (41.5%). A large portion of the gains shown by El Monte and Whittier, and to a lesser extent by Inglewood were the consequence of substantial inhabited annexations.

Those cities showing losses included: Irwindale—432 (—28.5%), Santa Fe Springs—415 (—12.5%), Industry—71 (—9.1%), and Vernon—11 (—4.8%).

Increase Since 1960	116,762	16,136	300,007	432,905
Per Cent of Total Increase	27.0	3.7	69.3	100.0

*These figures are compiled from a monthly survey of residential new construction, move-ins, removals, demolitions and alterations reported by each of the permit issuing agencies in Los Angeles County. Unit changes are entered in the estimated housing inventory after either actual or assumed completion.

**These totals include additional adjustments not reported in the regular building permit review.

CARSON, THE SEVENTY-SEVENTH CITY

Carson became Los Angeles County's seventy-seventh and California's four hundred first city on February 20, 1968. Ranked eighteenth in population and ninth in area among the County's cities, Carson is the ninth community to incorporate in Los Angeles County since the 1960 Census.

The new city has an estimated April first population of 60,105 housed within 16,636 dwelling units of which 4,538 are single family, 238 duplex, and 1,860 multiple units.

Carson has been divided into three Statistical Areas so as to preserve comparability with past data series. The new reporting areas are: S.A. 8.4, S.A. 10.31, and S.A. 10.32.

THE REGIONAL PLANNING COMMISSION OF LOS ANGELES COUNTY. *Commissioners: Owen H. Lewis, Chairman; Alfred A. Paonessa, Vice Chairman; Mrs. L. S. Baca, Arthur J. Baum and Louis Kanaster. Director: Orville K. Christenson.*

For Additional Information: *Call or write the Population Research Section, Los Angeles County Regional Planning Commission, 320 West Temple St., Los Angeles 90012, MAdison 8-9211, Extension 63032.*

* Cudahy (SA 32.10) and Bell Gardens (SA 32.11) were incorporated after April 1, 1960. However, the boundaries of each coincides with those used in the 1960 Census. The census figures are shown in parentheses and are not included in total for SA 32.0.

ADJUSTMENTS

There were two large adjustments completed in this issue. The first recognized the results of a field count in the La Mirada area, an average of eighty-six single family units were removed from S.A. 24.25.

The second major change involved the transfer of units to recognize the establishment of the City of Carson. Involved was the shifting of 1,135 dwelling units from S.A. 8.332 to S.A. 8.4, 9,989 units from S.A. 10.211 to S.A. 10.31 and 5,512 units from S.A. 10.212 to S.A. 10.32.

has been seriously diluted by the establishment of new shopping centers and the extension of commercial strips.

6. Past emphasis on creating a desirable residential environment has led to a substantial shortage of industrial job opportunities in the Area.

7. Continuing population growth is increasing demands for expanded facilities such as parks, schools, highways and freeways, and for public transportation, whether in the form of expanded local bus service, rapid transit, or both. State and local agencies are finding it increasingly necessary to attend to the relocation problems of persons and businesses displaced by public acquisition for new facilities.

The Challenges Ahead

Housing. A major task confronting the Area is the conservation and rehabilitation of many older neighborhoods. This must include the encouragement of the private sector to build in the areas most in need of rebuilding, while also urging the construction of a wider range of housing to meet the needs of more income levels.

Commerce. Special revitalization efforts are needed to help the various "downtowns" regain their share of the local economy which in turn will enable them to once again serve as a strong focus for individual community identitiy.

Industry. A greater effort must be made to create more industrial job opportunities in the area.

Public Sector. In the face of a severe shortage of public funds, local governments must explore the joint use of public lands and coordination of capital projects programming if they are to provide the educational and recreational facilities needed.

Alternatives for the Future

Working with the West San Gabriel Valley Planning Council, a study of the possibilities for the year 2000 was undertaken. From this study emerged three patterns of future urban development which had some promise of meeting these area-wide challenges. These included:

I. Dispersion, a form which would reflect a continuation of present trends of an intermingling of residential, commercial, and to a lesser extent, industrial growth throughout the area;

II. Corridors, an arrangement which would concentrate growth along major transportation routes and rapid transit lines;

III. Centers, a program to cluster residential and commercial growth around the various "downtowns" and other key points.

The "centers" form was chosen as the basic concept for the proposed 1985 Area General Plan on the basis that it would:

1. Best represent the objectives reflected in existing community general plans;

2. Provide the excitement and variety of recreational opportunities associated with "big cities", while preserving ample room for single-family living and expansion of open space between high density centers;

3. Enhance individual community identity;

4. Increase the variety and quality of housing and employment opportunities within the Valley;

5. Better serve the transportation needs of low income, elderly and youthful residents than the dispersion form towards which the area is presently tending.

The Area General Plan

The proposed Plan outlines the general pattern of development possible in 1985 if the area is guided toward a modified "centers" form.

The fundamental objectives of the Plan are:

1. Channelization of new residential and apartment growth into central areas around existing downtowns;

2. Conservation and development of existing large scale open spaces;

3. Intensification and expansion of industry where most needed; and

4. Provision of a balanced transportation system in which rapid transit, freeways and thoroughfares would interconnect the "centers" within the Area and link them to

those in other parts of the metropolitan area.

The Plan places an emphasis on specific priorities for coordinated inter-jurisdictional implementation during the next five years. However, the Plan leaves detailed interpretation to the individual jurisdictions.

If the Plan is to succeed, important policy commitments will have to be made by a majority of the Area's cities. Such commitments include modification of zoning to fit the general outlines of the Plan; vigorous conservation and rehabilitation of older neighborhoods; support of rapid transit, preservation of existing major public and private open spaces and full development of recreation land in the Angeles National Forest, along flood control channels, under power transmission lines and adjacent to schools.

The Area General Plan is not a static document. It will be periodically revised as evolving social, economic and technological conditions change the planning perspective.

Questions on the West San Gabriel Valley Study may be referred to the Land Use Studies Section of the Regional Planning Commission, MAdison 8-9211, Extension 63084.

Quarterly Bulletin No. 101, July 1, 1968

QUARTERLY BULLETIN
POPULATION AND DWELLING UNITS

THE REGIONAL PLANNING COMMISSION • COUNTY OF LOS ANGELES, CALIFORNIA

LOS ANGELES COUNTY POPULATION

July 1, 1968 estimate 7,119,184

Los Angeles County population reached a mid-year total of 7,119,184 a gain of 16,287 during the second quarter and an increase of 31,507 since the beginning of the year.

The population of the County's seventy-seven cities totaled 6,074,332 on July first a gain of 18,712 in past three months, while during the same period the unincorporated area population declined 2,425 to a total of 1,004,852.

The ranking of the County's ten largest cities on July first was as follows: 1. Los Angeles, 2,841,541; 2. Long Beach, 383,378; 3. Glendale, 137,481; 4. Torrance, 133,847; 5. Pasadena, 125,766; 6. Downey, 97,307; 7. Burbank, 97,267; 8. Norwalk, 95,864; 9. Santa Monica, 91,313 and 10. Inglewood, 89,782.

1970 CENSUS PREPARATIONS

Tract Plan Approved

The United States Bureau of the Census recently approved a 1970 census tract plan for Los Angeles County. This 1970 plan provides for a total of 1,574 census tracts or 277 more than were used in 1960. Almost all of these new reporting units were created by the division of existing tracts and without substantially altering the exterior boundaries of the tracts being divided.

The four digit numbering system adopted in 1960 to replace the one to three digits with letter suffix code used in 1940 and 1950 has been retained. Tracts divided for the 1970 Census have been designated by a suffix of decimal and two digits. A new number was used in those few instances in which portions of two or more 1960 census tracts were combined to form a new tract.

LOS ANGELES COUNTY CENSUS TRACTS
1930 - 1970

Year	Los Angeles City	Other Jurisdictions	Los Angeles County
1930	115*	None	115*
1940	304	285	590
1950	363	430	793
1960	632	665	1,297
1970	739	835	1,574

*These tracts used in 1930 Census only.

Address Coding Guide

The creation of an address coding guide which will list the potential high and low address range for each block face in the metropolitan postal delivery area of Los Angeles County has begun. Prepared from a listing gathered by the Los Angeles Regional Transportation Survey of the California Division of Highways, the address ranges will be verified by the Regional Planning Commission in cooperation with the City of Los Angeles and the other participating municipalities.

This project is scheduled for completion in early 1969.

LOS ANGELES COUNTY HOUSING TRENDS*

1965	6,375	820	21,398	28,593
1964	9,572	1,494	40,649	51,715

NET INCREASE SINCE 1960 CENSUS**

July 1, 1968 ..	1,518,733	211,040	816,385	2,546,158
Apr. 1, 1960..	1,401,581	195,010	513,017	2,109,608
Increase Since 1960	117,152	16,030	303,368	436,550
Per cent of Total Increase	26.8	3.7	69.5	100.0

*These figures are compiled from a monthly survey of residential new construction, move-ins, removals, demolitions and alterations reported by each of the permit issuing agencies in Los Angeles County. Unit changes are entered in the estimated housing inventory after either actual or assumed completion.

**These totals include additional adjustments not reported in the regular building permit review.

DWELLING UNITS ADDED IN MODEST UPTURN

A survey of net additions shows that 975 more dwelling units were added in the past quarter than in the first quarter of 1968 and 2,749 more than in the second quarter of 1967. New multiple dwelling units have been the major factor in this upturn with 1,221 more units being added in the second quarter than in first three months of this year and 1,900 more units than in second quarter of 1967.

The recovery in the net addition of single family dwelling units continued but slowed during the second quarter. The net addition of single units dropped to 1,273 from a first quarter total of 1,525 units. However, the 1968 second quarter total is far ahead of the 508 single units added in the similar quarter of 1967.

THE REGIONAL PLANNING COMMISSION OF LOS ANGELES COUNTY. *Commissioners: Owen H. Lewis, Chairman; Alfred A. Paonessa, Vice Chairman; Mrs. L. S. Baca, Arthur J. Baum and Louis Kanaster. Director: Orville K. Christenson.*

* Cudahy (SA 32.10) and Bell Gardens (SA 32.11) were incorporated after April 1, 1960. However, the boundaries of each coincides with those used in the 1960 Census. The census figures are shown in parentheses and are not included in total for SA 32.0.

ADJUSTMENTS

The totals for several Statistical Areas were corrected to recognize the 856 dwelling units demolished in the County's neighborhood rehabilitation program during 1966 and 1967. The majority of these dwelling unit demolitions were distributed as follows: S. A. 8.331—247, S. A. 11.21—159, S. A. 11.22—94, S. A. 32.831—111 and S. A. 32.832—102. An additional 214 dwelling units were removed from S. A. 8.1 (Compton City) as a result of the clearing of a site for a junior high school.

The annexation of the Long Beach Veteran's Hospital to Long Beach City was recognized and the institutional population of 1,502 transferred from S. A. 17.31 to S. A. 17.2.

The results of the special field count of the City of Carson were received too late for this issue. They will be included in the next Bulletin.

POPULATION AND DWELLING UNITS

THE REGIONAL PLANNING COMMISSION • COUNTY OF LOS ANGELES, CALIFORNIA

LOS ANGELES COUNTY POPULATION

October 1, 1968 estimate 7,136,820

The Regional Planning Commission estimates that Los Angeles County population rose by 17,636 persons during the third quarter to reach an October first total of 7,136,820. This is an increase of 49,143 since the first of the year and a gain of 1,094,120 in the eight and one-half years since the 1960 Census. Represented in this new County total is an eight and one-half year average growth of 128,720 persons per year or a population increase of slightly more than 18% since the last decennial census.

The population of the County's seventy-seven cities has increased by an estimated 107,116 persons since January first, while the unincorporated area lost 57,973 during the period largely as the result of the incorporaation of Carson.

SLOW RECOVERY CONTINUES

The slow recovery in net dwelling units added continued to be evident with a 1968 third quarter increase of 5,004 units which was the largest quarterly net gain since the fourth quarter of 1966.

The estimated net dwelling unit increase from January first to October first totaled 13,517 units. This represents a 59% increase in net units added as compared with the same nine months of 1967. However, the current increase is far below the 19,815 unit net increase for the comparable months of 1966.

Fifty-four per cent of the third quarter net unit increase occurred within five of the Major Statistical Areas. Widely dispersed, they included the following which are shown with their individual total net unit increases: MSA 22.0 Norwalk Area 594, MSA 26.0 Puente Hills Area 570, MSA 30.0 Santa Monica-Venice Area 565, MSA 23.0 Palos Verdes Area 546 and MSA 27.0 San Fernando Area 449.

All of the net additions in the Puente Hills area were single family units as were 71% of those included in the Norwalk Area. The majority of the increase in the other three areas was represented by multiple unit construction.

*These figures are compiled from a monthly survey of residential new construction, move-ins, removals, demolitions and alterations reported by each of the permit issuing agencies in Los Angeles County. Unit changes are entered in the estimated housing inventory after either actual or assumed completion.

**These totals include additional adjustments not reported in the regular building permit review.

THE REGIONAL PLANNING COMMISSION OF LOS ANGELES COUNTY. *Commissioners: Owen H. Lewis, Chairman; Alfred A. Paonessa, Vice Chairman; Mrs. L. S. Baca, Arthur J. Baum and Louis Kanaster. Director: Orville K. Christenson.*

* Cudahy (SA 32.10) and Bell Gardens (SA 32.11) were incorporated after April 1, 1960. However, the boundaries of each coincides with those used in the 1960 Census. The census figures are shown in parentheses and are not included in total for SA 32.0.

ADJUSTMENTS

Although there were two major annexations during the quarter, only the annexation of 152 single dwelling units to S.A. 25.2 (Claremont City) from S.A. 25.42 (Uninc.) was recognized in this issue. The largely uninhabited annexation to S.A. 8.1 (Compton City) from S.A. 8.332 (Uninc.) and S.A. 10.212 (Uninc.) will be included in the January bulletin.

The correction of the counts for the city of Carson special census will be completed as soon as the detailed figures are received.

MOBILEHOME PARKS

The 815 mobilehome parks in Los Angeles County on October first contained a total of 38,855 spaces, a recently completed study by the Commission's Economic Studies Section disclosed.

Largely based upon information gathered by the Los Angeles County Health Department, this survey found that mobilehome parks were located in all but 5 of the 35 Major Statistical Areas. Among those without parks were MSA 2.0 (Avalon), MSA 3.0 (Beverly Hills), MSA 9.0 (Central), MSA 15.0 (Hollywood) and MSA 35.0 (Wilshire).

Seven Major Statistical Areas contained 2,500 or more spaces each. Together their total spaces accounted for more than 56 per cent of all spaces in the County. Two Areas lead all others in the number of spaces. These were MSA 22.0 (Norwalk) with 4,170 spaces and MSA 20.0 (North County) which closely followed with 4,074 spaces.

The other leaders and their individual number of spaces were MSA 16.0 (Inglewood) 3,082, MSA 7.0 (Citrus) 2,780, MSA 10.0 (Dominguez-Los Angeles Harbor) 2,752, MSA 25.0 (Pomona) 2,614, and MSA 32.0 (Southeast) 2,526.

Southern California mobilehome experts interviewed during the survey were of the general opinion that vacancy in the parks in Los Angeles County was less than five percent. Therefore, although not directly comparable with the 1960 Census mobilehome counts, this 1968 available space tally gives a good indication of the direction of post-1960 mobilehome trends in Los Angeles County.
